

Mission, Vision & Corporate Commitments

Policy Statement

Mission

To leverage our highly skilled workforce, strategic partnerships and leading technology to generate, operate and license high quality non-exclusive seismic projects that assist our customers to achieve exploration success.

Vision

To be the global multi-client company most admired for its commitment to quality products, mutually beneficial partnerships and total customer satisfaction.

Corporate Commitment

Searcher Seismic management's commitment to operating and maintaining a safe and healthy work environment for its employees, contractors and project partners is reflected in its HSE Policy Statement and is supported by a comprehensive Integrated Management System. Searcher's management team actively monitors and measures the company's HSE performance and strives for continual improvement to meet its current and changing business strategies. Protection of the natural environment is an integral component of Searcher's operational planning and project execution.

Searcher's employees, at all levels, are required to adhere to our eight core values:

- Responsibility
- Integrity
- Communication
- Honesty
- Encouragement
- Respect
- Innovation
- Quality
